

Listing Of Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application.

1. (Currently Amended) A slot machine comprising:

a basic game controlled by a processor in response to a wager amount, the basic game including a plurality of simulated reels on a visual display, the reels being rotated and stopped to arrange symbols on the reels in an array, the symbols on the reels including one or more special symbols; and

an interplay feature activated by the processor in response to at least one of the special symbols appearing in the array, the interplay including a symbol interaction randomly selected from a plurality of possible symbol interactions between the special symbol and at least one other symbol, the selected symbol interaction to determine a game outcome from a plurality of possible game outcomes, wherein the symbol interaction animates the array to portray the game outcome ~~special symbol interacting graphically with one or more of the other symbols in the array to portray one of a plurality of randomly selectable actions therebetween that determines a game outcome, said interplay feature generating a payout based upon said game outcome.~~

2. (Original) The slot machine of claim 1, wherein the visual display is a video display.

3. (Original) The slot machine of claim 1, wherein each of the special symbols is associated with at least one of the other special symbols.

4. (Original) The slot machine of claim 1, wherein all of the symbols are special symbols.

5. (Original) The slot machine of claim 1, wherein the basic game has one or more themes and each special symbol relates to at least one of the themes.

6. (Original) The slot machine of claim 5, wherein the number of reels depends on the theme of the game.

7. (Original) The slot machine of claim 5, wherein the symbols in the array are arranged in visual association with one or more pay lines, the pay lines including at least one thematic pay line.

8. (Original) The slot machine of claim 7, wherein the thematic pay line is a scatter pay line.

9. (Original) The slot machine of claim 5, wherein the theme of the game is selected from a group consisting of football, basketball, baseball, golf, hockey, volleyball, soccer, bowling, archery, people, objects, animals, and vehicles.

10. (Original) The slot machine of claim 1, wherein an outcome of the interplay feature depends on an input from a player.

11. (Original) The slot machine of claim 1, wherein an arrangement and outcome of the interplay are determined at least in part by a proximity of the special symbols in the symbol array.

12. (Cancelled)

B1¹² 13. (Original) The slot machine of claim 1, wherein the interplay feature generates a payout depending at least in part on an outcome of the interplay feature.

13 14. (Original) The slot machine of claim 1, wherein an outcome of the interplay feature affects initialization or scoring of a subsequent round of the interplay feature.

14 15. (Original) The slot machine of claim 1, wherein the interplay feature includes an action screen shown on the visual display.

16. (Original) The slot machine of claim 1, wherein the symbols in the array are arranged in visual association with one or more pay lines, the interplay feature illustrating the path of a pay line.

17. (Original) The slot machine of claim 1, wherein the number of reels is adjusted according to an outcome of the interplay feature.

18. (Original) The slot machine of claim 1, wherein a payout is determined at least in part by the symbol array before or after the interplay feature.

19. (Original) The slot machine of claim 1, wherein during the interplay feature the processor animates at least one of the symbols.

20. (Original) The slot machine of claim 1, wherein the interplay feature simulates a sports event.

21. (Original) The slot machine of claim 20, wherein the sports event is selected from the group consisting of a pitcher throwing a baseball, a hitter hitting a baseball, a catcher catching a baseball, a quarterback throwing a football to a receiver, a quarterback or receiver running with a football, a kicker kicking a football, a hurdler hurdling a hurdle, a pole vaulter vaulting a bar, a long jumper jumping a pit, and a basketball shooter throwing a basketball through a hoop.

22. (Original) The slot machine of claim 1, wherein the special symbol moves from a first position in the symbol array to a second position in the array.

23. (Original) The slot machine of claim 22, wherein the second position in the array is occupied by another special symbol.

24. (Original) The slot machine of claim 22, wherein the special symbol moves to a plurality of positions in the symbol array during the interplay feature.

25. (Original) The slot machine of claim 1, wherein at least one of the reels stops rotating after the processor initiates the interplay feature.

B1 26. (Original) The slot machine of claim 1, wherein during the interplay the special symbol interacts with graphics on the display other than the symbols on the reels.

15 ~~27~~ 1A ~~15~~. (Original) The slot machine of claim ~~15~~, wherein the action screen is superimposed over the symbols in the array.

27 ~~28~~. (Currently Amended) A method of operating a slot machine under control of a processor comprising:

- a) providing a basic game including a plurality of simulated reels on a visual display;
- b) in response to a wager amount, rotating and stopping the reels to arrange symbols on the reels in an array, the symbols on the reels including one or more special symbols; and

- c) providing an interplay feature in response to at least one of the special symbols appearing in the array, the interplay including a symbol interaction randomly selected from a plurality of possible symbol interactions between the special symbol and at least one other symbol, the selected symbol interaction to determine a game outcome from a plurality of possible game outcomes ~~special symbol interacting graphically with one or more of the other symbols in the array to portray one of a plurality of randomly selectable actions therebetween that determines a game outcome~~; and
- d) generating a payout based upon the game outcome.

B1 28/29. (Original) The method of claim ²⁷~~28~~, wherein the visual display is a video display.

29/30. (Original) The method of claim ²⁷~~28~~, wherein each of the special symbols is associated with at least one of the other special symbols.

30/31. (Original) The method of claim ²⁷~~28~~, wherein all of the symbols are special symbols.

31/32. (Original) The method of claim ²⁷~~28~~, wherein the basic game has one or more themes and each special symbol relates to at least one of the themes.

32/33. (Original) The method of claim ³¹~~32~~, wherein the number of reels depends on the theme of the game.

³³~~34~~ (Original) The method of claim ³¹~~32~~, wherein the symbols in the array are arranged in visual association with one or more pay lines, the pay lines including at least one thematic pay line.

³⁴~~35~~ (Original) The method of claim ³³~~34~~, wherein the thematic pay line is a scatter pay line.

³⁵~~36~~ (Original) The method of claim ³¹~~32~~, wherein the theme of the game is selected from a group consisting of football, basketball, baseball, golf, hockey, volleyball, soccer, bowling, archery, people, objects, animals, and vehicles.

³⁶~~37~~ (Original) The method of claim ²⁷~~28~~, wherein an outcome of the interplay feature depends on an input from a player.

³⁷~~38~~ (Original) The method of claim ²⁷~~28~~, wherein an arrangement and outcome of the interplay are determined at least in part by a proximity of the special symbols in the symbol array.

39. (Cancelled)

³⁸~~40~~ (Original) The method of claim ²⁷~~28~~, wherein the interplay feature generates a payout depending at least in part on an outcome of the interplay feature.

39 ~~41~~ (Original) The method of claim ~~28~~²⁷, wherein an outcome of the interplay feature affects initialization or scoring of a subsequent round of the interplay feature.

40 ~~42~~ (Original) The method of claim ~~28~~²⁷, wherein the interplay feature includes an action screen shown on the visual display.

42 ~~43~~ (Original) The method of claim ~~28~~²⁷, wherein the symbols in the array are arranged in visual association with one or more pay lines, the interplay feature illustrating the path of a pay line.

43 ~~44~~ (Original) The method of claim ~~28~~²⁷, wherein the number of reels is adjusted according to an outcome of the interplay feature.

44 ~~45~~ (Original) The method of claim ~~28~~²⁷, wherein the payout is determined at least in part by the symbol array before or after the interplay feature.

45 ~~46~~ (Original) The method of claim ~~28~~²⁷, wherein during the interplay feature the processor animates at least one of the symbols.

46 ~~47~~ (Original) The method of claim ~~28~~²⁷, wherein the interplay feature simulates a sports event.

47
48. (Original) The method of claim ⁴⁶~~47~~, wherein the sports event is selected from the group consisting of a pitcher throwing a baseball, a hitter hitting a baseball, a catcher catching a baseball, a quarterback throwing a football to a receiver, a quarterback or receiver running with a football, a kicker kicking a football, a hurdler hurdling a hurdle, a pole vaulter vaulting a bar, a long jumper jumping a pit, and a basketball shooter throwing a basketball through a hoop.

48
49. (Original) The method of claim ²⁷~~48~~, wherein the special symbol moves from a first position in the symbol array to a second position in the array.

31 49
50. (Original) The method of claim ⁴⁸~~49~~, wherein the second position in the array is occupied by another special symbol.

50
51. (Original) The method of claim ⁴⁸~~49~~, wherein the special symbol moves to a plurality of positions in the symbol array during the interplay feature.

51
52. (Original) The method of claim ²⁷~~28~~, wherein at least one of the reels stops rotating after the processor initiates the interplay feature.

52
53. (Original) The method of claim ²⁷~~28~~, wherein during the interplay the special symbol interacts with graphics on the display other than the symbols on the reels.

41 54. (Original) The method of claim 40, wherein the action screen is superimposed over the symbols in the array.

55. (Cancelled)

56. (Cancelled)

53 57. (Currently Amended) A slot machine comprising:

a basic game controlled by a processor in response to a wager amount, the basic game

including a plurality of symbols randomly placed in a symbol array, the plurality of symbols including a plurality of special symbols; and

an interplay feature activated by the processor in response to a pair of the special symbols

appearing in the symbol array, the interplay including a symbol interaction randomly selected from a plurality of possible symbol interactions between a pair of special symbols, the selected symbol interaction to determine a game outcome from a plurality of possible game outcomes, wherein the selected symbol interaction animates the array to portray the game outcome ~~different pairs of the special symbols interacting graphically with each other to portray different actions that determine a game outcome, said actions being randomly selected from a plurality of selectable actions, said interplay feature generating a payout based upon said game outcome.~~

58. (Cancelled)

59. (Currently Amended) A slot machine comprising:

a basic game controlled by a processor in response to a wager amount, the basic game including a plurality of symbols randomly placed in a symbol array, the plurality of symbols including one or more special symbols; and

an interplay feature activated by the processor in response to at least one of the special symbols appearing in the array, the interplay including a symbol interaction randomly selected from a plurality of possible symbol interactions between the special symbol and at least one other symbol, the selected symbol interaction to determine a game outcome from a plurality of possible game outcomes, the symbol interaction selected determined in part upon a player input, wherein the selected symbol interaction animates the array to portray the game outcome
~~special symbol interacting graphically with one or more of the other symbols in the array to portray an action that determines a game outcome, the action being randomly selected from a plurality of selectable actions that require an input from a player, said interplay feature generating a payout based upon said game outcome.~~

55 60. (Currently Amended) A slot machine comprising:

a basic game controlled by a processor in response to a wager amount, the basic game including a plurality of symbols randomly placed in a symbol array, the plurality of symbols including a plurality of special symbols; and
an interplay feature activated by the processor in response to a pair of the special symbols appearing in the array, the interplay including a symbol interaction randomly selected from a plurality of possible symbol interactions between a pair of special symbols, the selected symbol interaction to determine a game outcome from a plurality of possible game outcomes, the symbol interaction selected determined at least in part by a proximity of the special symbols in the symbol array, wherein the symbol interaction animates the array to portray the game outcome ~~pair of the special symbols interacting graphically with each other to portray an action that determines a game outcome determined at least in part by a proximity of the special symbols in the symbol array, the action being randomly selected from a plurality of selectable actions, said interplay feature generating a payout based upon said game outcome.~~

61. (Cancelled)

56 62. (Original) A slot machine comprising:

a basic game controlled by a processor in response to a wager amount, the basic game including a plurality of symbols randomly placed in a symbol array in visual

association with one or more pay lines, the plurality of symbols including one or more special symbols; and

an interplay feature activated by the processor in response to at least one of the special symbols appearing in the array, the special symbol interacting graphically with one or more of the other symbols in the array to illustrate the path of one of the pay lines.

47

63. (Original) A slot machine comprising:

a basic game controlled by a processor in response to a wager amount, the basic game including a plurality of simulated reels on a visual display, the reels being rotated and stopped to arrange symbols on the reels in an array, the symbols on the reels including one or more special symbols; and

an interplay feature activated by the processor in response to at least one of the special symbols appearing in the array, the special symbol interacting graphically with one or more of the other symbols in the array, the number of reels being adjusted according to an outcome of the interplay feature.

48

64. (Currently Amended) A slot machine comprising:

a basic game controlled by a processor in response to a wager amount, the basic game including a plurality of symbols randomly placed in a symbol array, the plurality of symbols including one or more special symbols; and

an interplay feature activated by the processor in response to at least one of the special symbols appearing in the array, the interplay including a symbol interaction randomly selected from a plurality of possible symbol interactions between the special symbol and at least one other symbol in the array, the selected symbol interaction to determine a game outcome from a plurality of possible game outcomes, the interplay to simulate a sports event wherein the symbol interaction animates the array to portray the game outcome for the sports event ~~special symbol interacting graphically with one or more of the other symbols in the array to portray an action that determines a game outcome, said action randomly selected from a plurality of actions to simulate a sports event, said interplay feature generating a payout based upon said game outcome.~~

59
65. (Original) The slot machine of claim ~~64~~⁵⁸, wherein the sports event is selected from the group consisting of a pitcher throwing a baseball, a hitter hitting a baseball, a catcher catching a baseball, a quarterback throwing a football to a receiver, a quarterback or receiver running with a football, a kicker kicking a football, a hurdler hurdling a hurdle, a pole vaulter vaulting a bar, a long jumper jumping a pit, and a basketball shooter throwing a basketball through a hoop.

60
66. (Currently Amended) A slot machine comprising:
a basic game controlled by a processor in response to a wager amount, the basic game including a plurality of simulated reels on a visual display, the reels being rotated

and stopped to arrange symbols on the reels in an array, the symbols on the reels including one or more special symbols; and

an interplay feature activated by the processor in response to at least one of the special symbols appearing in the array, the interplay including a symbol interaction randomly selected from a plurality of symbol interactions between the special symbol and at least one other symbol in the array, the selected symbol interaction to determine a game outcome from a plurality of possible game outcomes, wherein at least one of the reels stops rotating after the processor initiates the interplay feature ~~special symbol interacting graphically with one or more of the other symbols in the array to portray one of a plurality of randomly selectable actions therebetween that determines a game outcome, wherein at least one of the reels stops rotating after the processor initiates the interplay feature to determine the game outcome, said interplay feature generating a payout based on said game outcome.~~

61
61. (Currently Amended) A slot machine comprising:

a basic game controlled by a processor in response to a wager amount, the basic game including a plurality of simulated reels on a visual display, the reels being rotated and stopped to arrange symbols on the reels in an array, the symbols on the reels including at least a pair of special symbols with a predefined relationship; and -
an interplay feature activated by the processor in response to the pair of special symbols appearing in the array, the interplay including a symbol interaction randomly

selected from a plurality of possible symbol interactions between a pair of special symbols interacting graphically with each other in an animated event, the selected symbol interaction to determine a game outcome from a plurality of possible game outcomes for the array, wherein the symbol interaction animates the array to portray the game outcome for the animated event ~~special symbols interacting graphically with each other in an animated event to portray one of a plurality of randomly selectable actions therebetween that determines a game outcome, the interplay feature generating a payout based upon said game outcome of the animated event.~~

62
68.

(New) A method of operating a slot machine under control of a processor comprising:

- a) providing a basic game including a plurality of simulated reels on a visual display;
- b) in response to a wager amount, rotating and stopping the reels to arrange symbols on the reels in an array, the symbols on the reels including one or more special symbols; and
- c) providing an interplay feature in response to at least one of the special symbols appearing in the array, the special symbol and at least one other symbol moving relative to the other symbols in the array to portray one of a plurality of randomly selectable interactions, wherein the selected interaction determines the game outcome; and
- d) generating a payout based upon the game outcome.

63
~~69~~

(New) A method of operating a slot machine having a plurality of symbols on simulated reels visible on a display comprising:

- a) randomly arranging the symbols on the reels to form an array in response to a wager;
- b) triggering an interplay feature when a predetermined event occurs in the array;
- c) randomly selecting a symbol interaction from a plurality of possible symbol interactions between selected symbols in the array for the interplay feature, the selected symbol interaction for determining a winning or losing game outcome;
- d) portraying the selected symbol interaction as an animated event; and
- e) generating a payout based upon the game outcome.

31
64
~~70~~

(New) A slot machine comprising:

a basic game controlled by a processor in response to a wager amount, the basic game including a plurality of simulated reels on a visual display, the reels being rotated and stopped to arrange symbols on the reels in an array, the symbols on the reels including one or more special symbols; and

an interplay feature activated by the processor in response to at least one of the special symbols appearing in the array, the interplay including a symbol interaction randomly selected from a plurality of symbol interactions for the array between the special symbol and at least one other symbol, the selected symbol interaction to determine a game, wherein the game outcome is not discernible from the stopped array.

65
71. (New) A slot machine comprising:

a basic game controlled by a processor in response to a wager amount, the basic game including a plurality of simulated reels on a visual display, the reels being rotated and stopped to arrange symbols on the reels in an array, the symbols on the reels including one or more special symbols; and

an interplay feature activated by the processor in response to at least one of the special symbols appearing in the array, the interplay including a symbol interaction between the special symbol and at least one other symbol, the interplay having a game outcome determined by randomly selecting one of a plurality of possible symbol interactions for the stopped array, wherein the selected symbol interaction graphically animates the array to display the game outcome.

B1

66
72. (New) A slot machine comprising:

a basic game controlled by a processor in response to a wager amount, the basic game including a plurality of simulated reels on a visual display, the reels being rotated and stopped to arrange symbols on the reels in an array, the symbols on the reels including one or more special symbols; and

an interplay feature activated by the processor in response to at least one of the special symbols appearing in the array, the interplay including a symbol interaction between the special symbol and at least one other symbol, the interplay having a game outcome determined by randomly selecting one of a plurality of possible symbol interactions independent of the symbol arrangement in the array.
